Mining in Cornwall and Devon, in the southwest of England, began in the early Bronze Age, around 2150 BC, and ended (at least temporarily) with the closure of South Crofty tin mine in Cornwall in 1998. Tin, and later copper, were the most commonly extracted metals.

Mining in Cornwall and Devon - Wikipedia

The tin and copper mining landscape of Cornwall and west Devon reflect Britain's burgeoning Industrial Revolution in the late 18 th and early 19 th centuries. There over 200 ruined mining sites, which according to Cornish Mining is the largest concentration of such monuments anywhere in the world.

Exploring the historic ruined tin mines of Cornwall

Dolcoath mine (Cornish: Bal Dorkoth} was a copper and tin mine in Camborne, Cornwall, England, United Kingdom. Its name derives from the Cornish for 'Old Ground', and it was also affectionately known as The Queen of Cornish Mines. The site is north-west of Carn Brea. Dolcoath Road runs between the A3047 road and Chapel Hill. The site is south of this road.
