Decoded Mai Jia

I find Decoded by Mai Jia a somewhat tricky novel, not because it is closely related to a more conventional spy novel that completely ignores the fundamentals of all other spy novels, in that it doesn't contain violence, money, sex, drugs etc, but because the author often seems to be trapped in the same isolated cryptic universe as his protagonist Rong Jinzhen.

Decoded by Mai Jia - Goodreads

Mai Jia's debut novel Decoded may be many things, but it is not a spy novel. To some extent it is historical, but it really is a half-psychological, half-philosophical tale. If you expect some sort of cliff-hanger, some mystery in which it is revealed, in a stunning reversal at the end, that such and such character was always a behind-the-scenes puppeteer, you will be disappointed.

Mai Jia (Author of Decoded)

Frans Badenhorst • July 25, 2016 4:43 PM. I read the 'Decoded' when it was released and thought it quite good. It's a novel so human interest and character are more the thing, i.e., it's about a character that is a mathematical genius and a cryptographer, but it's about him.
