Use this page to search for shortcuts and actions in the selected keymap, create, edit, and remove custom keymaps, and change shortcuts associated with actions in custom keymaps.

Keymap—JetBrains Rider

At work, I have a Windows laptop and it uses the default keymap. At home, I have a Linux Mint laptop and I tried several keymaps, but I really can't get the same "feel" to it. I know some people are quite good at their key shortcuts skills, I'm not one of those and rely on mouse interaction quite often.

How to set the same keymap in Windows and Linux? - JetBrains

To switch between keymaps, choose File | Settings | Keymap on Windows and Linux or JetBrains Rider | Preferences | Keymap on macOS, pick the desired keymap in the Keymaps selector, and click Save. When consulting this documentation, you can see keyboard shortcuts for the keymap that you use — choose it with the selector at the top of the page:

Emmet—PyCharm - JetBrains

> On one of your Linux IDEA, duplicate your current keymap and re-name it to something like 'Ayqazi - Linux'. Now, wait for the sync and open your IDEA on your second Linux box, go to the keymaps and select 'Ayqazi - Linux' and you should be set. Naming the Linux and Windows ones differently worked, thanks!

IDE Settings Sync not synchronizing keymap - JetBrains

I'm currently switching between macOS and Linux (Mint), and searching for a default keymap that makes that less painful. Right now, developing on my Linux desktop feels like when I switched from Qwerty to Dvorak 20 years ago - I have to stop and think "what's the shortcut" for nearly every task.

Default Keymap Reference - JetBrains

Hello, Since last month, every time I launch PHPStorm I get a balloon message with Missing

Keymap: Cannot find keymap "Default copy" I tried downloading a Keymap plugin, I tried playing with settings, I just can't get rid of this without getting rid of all balloon messages.
