Fire In The Valley The

Fire in the Valley is the definitive history of the personal computer, drawn from interviews with the people who made it happen, written by two veteran computer writers who were there from the start. Working at InfoWorld in the early 1980s, Swaine and Freiberger daily rubbed elbows with people like Steve Jobs and Bill Gates when they were creating the personal computer revolution.

Fire in the Valley: The Birth and Death of the Personal ...

To be fair, Fire in the Valley offers some fascinating insights into the evolution and rapid explosion of the PC industry. But each time that it feels like the book is finally getting interesting, Freiberger abruptly changes focus and loses whatever narrative momentum he'd been building. Another unfortunate limitation of this book is its age.

Fire in the Valley: The Making of the Personal Computer by ...

Fire in the Valley is the story of their efforts, and in particular, the contributions of an informal think tank called the Homebrew Computer Club. Its technically gifted community, comprising sci-fi aficionados and Berkeley counterculturists, believed computers could usher in an age of human empowerment, perhaps even a utopia.

Fire in the Valley

Fire in the Valley. The Birth and Death of the Personal Computer, Third Edition. by Michael Swaine and Paul Freiberger. In the 1970s, while their contemporaries were protesting the computer asa tool of dehumanization and oppression, a motley collection of collegedropouts, hippies, and electronics fanatics were engaged in somethingmuch more subversive.

Fire in the Valley

When it comes to blazing colors and monumental shapes, there is a spot in Nevada that might just rival the spectacle of the Las Vegas Strip. The Valley of Fire State Park glows with pink-and-beige-pinstriped waves, rainbow valleys, and crimson arches. And for

some Vegas-style flare, there's also a whimsical elephant, a fierce spear-thrower, and a beehive valley.
