EndorsementSmall Arrow. The Cognitive Neurosciences III is a magnificent accomplishment. It covers topics from ions to consciousness, from reflexes to social psychology. It is authoritative and encyclopedic, but also lively and unafraid of controversy. Michael Gazzaniga, The MIT Press, and the community of cognitive neuroscientists are to be congratulated for assembling this landmark of twentieth-century science and thrilling preview of what we will learn in the twenty-first.

Implant Fabrication. We manufactured photovoltaic arrays on silicon-on-insulator wafers using a six-mask lithographic process, as described previously. 15 To produce anodic-first pulses of electric current, we reversed the n-doped and p-doped regions in the diodes compared to the previous description. Photovoltaic arrays consisted of 70- or 140-µm pixels, separated by 5-µm trenches.
